

**Designed & Formulated to meet and provide  
UTMOST CARE for medical professional**

DOCARE Products are designed and created after consultations of experts across the medical field.

The specialist range of **Docare** products is an outcome of a critical need analysis of the medical fraternity, undertaken to produce products that are not superficial but good enough to address the root cause and provide a desired and rationale end benefit to its users. Therefore everytime you choose a Docare product, you are sure of the fact that you are being taken care of by a specialist.
